

1. Izračunati faktorijel prirodnog broja N

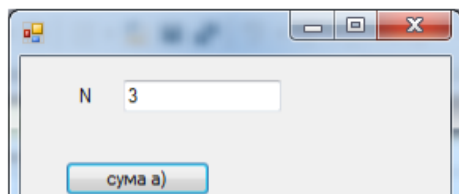

2. Izračunati stepen broja  $a^n$  (a i n prirodni brojevi)

3. Za uneti prirodan broj N izračunati:

a)

$$S = 1 - \frac{1}{2} + \frac{1}{3} - \dots + (-1)^{n-1} * \frac{1}{n}$$

4. Kreirati aplikaciju u kojoj se računa zbir neparnih cifara unetog broja.
